# Bull Driven

The method of Bull Driven helps to retain the nutrients and vitamins from the seeds. In this oil seeds, are crushed slowly to extract oil from them naturally. This is done to retain the nutrients and flavors.

GoDesi Cold pressed oils are obtained naturally by crushing oil seeds at room temperature. There is no extra heat and chemicals required, which makes them the healthiest variant of oil available to us.

## Commercial Refined Oil

Much of the healthy ingredients like antioxidants and vitamins are lost as oil passes through several chemical and heat treatment units.

Nutrients of oil diminished due to use of chemicals.

There is lack of aroma and flavor, due to high heating process.

Increases the trans fats of the oil
